CAREER OBJECTIVE

Junior Data Scientist with hands-on experience in Python, SQL, data analysis, machine learning, and data visualization. Built end-to-end projects involving customer segmentation, classification, EDA, feature engineering, and model evaluation. Seeking an entry-level Data Scientist or Data Analyst role.

TECHNICAL SKILLS

Programming: Python (Pandas, NumPy, Scikit-learn, XGBoost), SQL

Data Analysis: Data Cleaning, Exploratory Data Analysis (EDA), Statistical Analysis

Machine Learning: Regression, Classification, Clustering, Feature Engineering, PCA, Cross-Validation, Hyperparameter Tuning, Model Evaluation

Data Visualization: Matplotlib, Seaborn, Plotly, Dashboard & Visual Analytics Design

Tools: Jupyter Notebook, Git, GitHub, AI-assisted development tools

Additional: MS Excel, Word, PowerPoint, Access

PROJECTS

Customer Segmentation using K-Means, Hierarchical & DBSCAN Clustering — [GitHub Repo](#)

- Segmented 8,950 credit card customers by spending and repayment behavior, engineering 15 features via log-transforms, correlation filtering, and PCA (9 components, 95% variance).
- Benchmarked K-Means, Hierarchical, and DBSCAN (k=2–10) via silhouette score; selected K-Means (k=2, silhouette 0.26) as the best-performing, fully reproducible model in Python (pandas, scikit-learn).
- Identified two actionable segments — 60% purchase-active customers vs. 40% cash-advance/high-balance carriers — and translated each into concrete marketing and credit-risk recommendations.

Handwritten Digit Classification using KNN

- Built a K-Nearest Neighbors classifier to recognize handwritten digits, covering data preprocessing, model training, and accuracy evaluation.

Exploratory Data Analysis with Pandas

- Performed end-to-end EDA on real-world datasets — data cleaning, handling missing values, aggregation, and pattern detection using Pandas and NumPy.

CERTIFICATIONS & TRAINING

- Data Science & Machine Learning with Python** — Ostad (Batch 56) | Certificate of Completion, ID: C47906 | Completed: September 2026 | Assessment: Assignment 100%, Quiz 97.3%, Live Test 94.7% | [View Certificate](#)
- Computer Basic and ICT Applications** — Department of Youth Development, Ministry of Youth and Sports, Government of Bangladesh | Certificate ID: 141231 | Grade: A+ (Jul–Dec 2024)
 - Gained intermediate-level proficiency in MS Word, MS Excel, MS Access, and MS PowerPoint as part of the course curriculum.

EXPERIENCE

Mathematics and English Teacher — Markazul Uloomid Deeniyyah, Narsingdi, Bangladesh

Part-time | Jul 2023 – Present · 3 yrs 3 mos | Chinishpur, Narsingdi District, Dhaka, Bangladesh · On-site

- Teach Mathematics and English to secondary-level students through two daily sessions totaling approximately 3 hours.
- Plan lessons and prepare students for examinations while managing secondary-level Mathematics and English coursework.

CORE COURSEWORK

Python Programming Fundamentals & OOP, SQL (Joins, Aggregation, Normalization), NumPy & Pandas, Statistics for Data Science, Data Visualization, Machine Learning (Supervised & Unsupervised), Feature Engineering, Introduction to Neural Networks & NLP, Data Science with AI, Git & GitHub for Data Professionals.

EDUCATION

B.Sc. (Hons) in Mathematics — 4th Year (Running)

Govt. Shaheed Asad College, Shibpur, Narsingdi | Session: 2021–2022 | Expected Completion: 2027

Higher Secondary Certificate (HSC) – Science

Narsingdi Public College, Narsingdi | 2021 | GPA 4.42/5.00

Secondary School Certificate (SSC) – Science

Narsingdi Ideal High School, Narsingdi | 2019 | GPA 4.17/5.00

LANGUAGES

Bengali (Native) | English (Working Proficiency)
